

UNIVERSITY  
OF LONDON

2023

Undergraduate programmes in

# Economics, Management, Finance and the Social Sciences

With academic  
direction from:

THE LONDON SCHOOL  
OF ECONOMICS AND  
POLITICAL SCIENCE

[london.ac.uk/emfss](https://london.ac.uk/emfss)

World class. Worldwide.

# Join the World Class

## 1 **A mark of excellence**

Gain a degree from the University of London (with academic direction from the LSE), a mark of excellence, respected worldwide since 1858.

## 2 **Study without relocating**

Study at a teaching centre near you and gain a prestigious qualification. With no international travel, relocation or accommodation costs, studying a University of London programme at a distance is more affordable than coming to London to study on campus.

## 3 **Quality of curriculum**

The programmes in this prospectus are developed and examined/assessed by academics at LSE, a Member Institution of the University of London and one of the world's leading social science universities.

## 4 **Employability**

Develop transferable employment skills such as problem solving, analysis and self-motivation which are sought after by top employers worldwide.

## 5 **Global alumni network**

On graduation join our global community of influential alumni, from leaders in business and industry to Nobel Prize winners.

An aerial view of the London skyline, featuring a mix of modern glass skyscrapers and historic stone buildings. The Shard is prominent on the left. The sky is filled with soft, white clouds. A large yellow vertical bar is on the right side of the image, containing text.

“In a fast changing environment of worldwide access to higher education, a University of London degree continues to offer a guarantee of quality, value and intellectual rigour.”

**Professor Wendy Thomson**  
Vice-Chancellor,  
University of London

# Your prestigious University of London qualification

## About your qualification

When you graduate with a degree, diploma or certificate from the University of London you will receive two important documents – your Final Diploma (the certificate you receive on graduation) and a Diploma Supplement.

## The Final Diploma

- Indicates that you were registered with the University of London and awarded a University of London degree, diploma or certificate.
- Gives the name of the London School of Economics and Political Science as the Member Institution that developed the syllabus, curriculum and provided assessment.
- Features the University of London crest and the Vice-Chancellor's signature.

## The Diploma Supplement

- Describes the nature, level and content of the programme you successfully completed.
- Includes the transcript of courses taken, marks achieved and overall classification.
- States the role of the London School of Economics and Political Science and the method of study.

# Contents

## Key dates

Applying for an EMFSS programme  
(Please note: This includes all BSc,  
Graduate Diploma programmes  
and Certificate of Higher Education  
in Social Sciences – CHESS)

Step 1: For all programmes you  
must apply to a Recognised  
Teaching Centre.

Please contact them for their  
specific application deadline:  
[bit.ly/teaching-centre-study](https://bit.ly/teaching-centre-study)

University of London  
Application deadline:  
1 October 2023

Step 2: Following your successful  
application you will register  
for your programme with  
the University of London.

University of London  
Registration deadlines:  
1 November 2023

Examinations:  
May and June

Resits:  
October and November

# World-class academic direction from LSE

LSE is a world-leading university specialising in the social sciences and home to an inspirational international community. We were ranked 3rd in the world for Management and Social Sciences in the 2022 QS World University subject rankings.

LSE is unique in its focus on social sciences. The School pioneered the study of social sciences, economics and international relations, and LSE academics continue to be among the leading thinkers in these fields. LSE's world-class faculty use their research to influence governments and non-governmental organisations and assist businesses in tackling the world's problems.

LSE is rooted in London, but the School is proud to be international. We consider students on the University of London programmes to be important members of our community – one of the most diverse in the world.

## Stand out from the crowd

LSE was founded to understand the causes of things, in order to transform them. It is our commitment that the Economics, Management, Finance and Social Sciences (EMFSS) programmes will give students the ability to lead in solving problems of contemporary global relevance.

Students will graduate with additional knowledge, skills and ways of thinking about the world that will translate

to further study at undergraduate or master's level, or to the workplace.

EMFSS students will graduate with knowledge, skills and ways of thinking that will help propel them into careers in a wide variety of fields, from accounting, banking and information systems, to the media, civil service and journalism. Equally, many EMFSS graduates continue onto Master's level study; and find their EMFSS degree has given them the rounded preparation needed for success at this level.

## EMFSS programmes

The EMFSS programmes are all University of London qualifications. LSE is a Member Institution of the University of London and provides the academic direction for the EMFSS programmes. This means that LSE is responsible for the following:

- planning the structure and content of each EMFSS programme
- developing and writing the study materials
- setting examination papers and marking the scripts

- determining the curriculum and progression of students.

Your final degree, diploma or CHES certificate will be from the University of London and will identify LSE as having developed the syllabus, curriculum and provided assessment.

## Bachelor of Science degrees

Our flexible bachelor's degrees are offered via two different study routes to meet differing student needs. The Standard Route has been designed for students embarking on their initial bachelor's degree.

The Graduate Entry Route is for students wishing to undertake an additional bachelor's degree. It provides a fast-track opportunity to specialise in a field, with focused course options and subject groups to choose from. This route is of particular interest to graduates who wish to take their careers, or postgraduate study, in a different direction to their first degree.

## Graduate Diplomas

These undergraduate-level diplomas are designed for graduates who want to acquire additional university-level education but in a different subject area to their first degree.

These qualifications are of particular interest to those who seek to upskill

in order to change professions but do not require a full second degree.

## Certificate of Higher Education in Social Sciences (CHES)

The CHES is an entry-level qualification which is of interest to students who would like to progress onto an EMFSS Bachelor of Science degree.

## Programme benefits

Our EMFSS programmes are designed to provide students with a wide choice of study options.

- You can opt to study at your own pace, taking up to six years to complete your Bachelor of Science degree, five years to complete a Graduate Diploma and one to three years to complete the CHES.
- The Virtual Learning Environment (VLE) provides access to online study material, self-test activities, a Study Buddy database and study skills advice.
- EMFSS students and graduates have the opportunity to be considered for LSE Summer School and master's scholarships. In 2022, around 80 EMFSS students attended the LSE Summer School.

LSE was founded in

# 1895

It is now one of the foremost social science universities in the world

# 37 18

World leaders (past and present) Nobel Prize winners

have taught or studied at LSE

# 120+

LSE academics are responsible for the academic direction, content and assessment of the EMFSS degrees and diplomas offered via the University of London

# 25

Graduates of the University of London are currently undertaking postgraduate study at LSE in London

# Our programmes

## BSc degrees

---

BSc degrees in the EMFSS programme are based on undergraduate degrees taught at LSE. Although the study experience is different, the examinations themselves are aligned as closely as practicable with those at LSE and are set and marked to the same standards.

There are 12 degrees to choose from. Most of the programmes are assessed by a single examination but some also have a project/coursework component.

## A University of London degree

---

Undergraduate degrees of the University of London are awarded with Honours. The award certificate will indicate the level of the academic performance (Honours) achieved by classifying the award. The classification of the degree will be based on the ratified marks from the completed assessments. The standard classification system for bachelor's degrees with Honours is:

- First Class
- Upper Second Class
- Lower Second Class
- Third Class

A Pass Degree or Ordinary Degree is a degree without Honours.

## Recognised Teaching Centres

---

The University of London currently works with a growing network of over 100 Recognised Teaching Centres worldwide (over 30 specifically for the EMFSS programmes) which provide tuition support for our students. Some Recognised Teaching Centres offer the programmes as parallel degrees. For more details visit: [bit.ly/recognised-centres](https://bit.ly/recognised-centres)

For those interested in studying online, see: [onlinecourses.london.ac.uk](https://onlinecourses.london.ac.uk)

## Courses

---

All the EMFSS programmes are made up of units of study called courses. Each course covers a specific topic and is examined separately.

Your EMFSS programme will be made up of 12 courses. Full courses are worth 30 credits, whereas half courses are worth 15 credits. Some of the courses within your programme will be mandatory, whereas others are optional and can be selected by you from the designated Selection Groups. To see which courses are available, go to: [london.ac.uk/emfss](https://london.ac.uk/emfss) and select the relevant degree.

## Choosing your courses

---

For most degrees you have a certain amount of choice in the courses that you take. You have control, within certain guidelines, over the number and choice of examinations you take each year. For more information on available degrees, structures and course outlines, please see: [london.ac.uk/emfss](https://london.ac.uk/emfss)

## The FHEQ framework

---

The UK Quality Assurance Agency for Higher Education has prepared a framework (Framework for Higher Education Qualifications – FHEQ) for classifying the level of courses to permit the comparability of those taught in different institutions. University undergraduate courses are classified at three levels corresponding to standard three-year undergraduate degrees: Level 4 (introductory), Level 5 (intermediate) and Level 6 (advanced). Level 7 is graduate level for master's degrees. In terms of the EMFSS awards:

- 100 numbered courses are classified as FHEQ Level 4
- 200 numbered courses are classified as FHEQ Level 5
- 300 numbered courses are classified as FHEQ Level 6.

Award/Level	Why consider this?	Courses	Duration
-------------	--------------------	---------	----------

**If you do not currently meet the entrance requirements for our degrees**

<b>Certificate of Higher Education in Social Sciences (FHEQ Level 4)</b>	<p>If you can attend one of the Recognised Teaching Centres with permission to teach the programme and you wish to:</p> <ul style="list-style-type: none"> <li>• progress on to the degree programme but do not meet the entrance requirements for the degree</li> <li>• gain a stand-alone qualification that will admit you into the second year of the BSc programmes listed in this prospectus and degrees at many universities in the UK, USA and Australia.</li> </ul>	4	1–5 years ▲
--	--	---	-------------

**If you meet the entrance requirements for our degrees**

<b>BSc Standard Route (FHEQ Level 6)</b>	<ul style="list-style-type: none"> <li>• To gain a world-class degree through flexible study.</li> <li>• If you have previously studied similar material to a comparable level and depth you can apply for recognition of prior learning (RPL) from up to four full 100 level courses.</li> </ul>	12	3–6 years
--	---	----	-----------

**If you already have a first degree (bachelor's degree)**

<b>BSc Graduate Entry Route (FHEQ Level 6)</b>	If you hold a full first degree and want a flexible way to gain a second degree, you may be able to complete a shorter than usual study programme (a minimum of two years for most degrees).	9	2–6 years †
<b>Graduate Diplomas (FHEQ Level 6)</b>	If you hold a full first degree in any discipline but, for professional or personal reasons, wish to secure a stand-alone qualification in a named discipline in the fields of Economics, Management, Finance and the Social Sciences. You may also use the diploma as a basis for progression into postgraduate study in a related area.	4	1–5 years

All students will need to register at, and pay fees to, a local Recognised Teaching Centre.

See page 25 for entrance requirements for: **CHES**, **BSc degrees (Standard and Graduate Entry Route)** and **Graduate Diplomas**.

There are many qualifications, from the UK and overseas, which satisfy the University's entrance requirements. For more information visit: [bit.ly/Gen-Entry-Quals](https://bit.ly/Gen-Entry-Quals)

▲ If you successfully complete the CHES you can transfer to, and complete, a BSc degree in a further two years, paying continuing registration fees.

† The BSc Accounting and Finance, BSc Economics, BSc Economics and Finance, and BSc Management and Digital Innovation have a three-year minimum registration period.

# How you study

## Am I ready to study?

---

A University of London qualification is highly regarded worldwide. Given the academic rigour of our programmes, to achieve good results requires a high degree of self-motivation. But your hard work will be worth it in the end, as you will join a community of alumni with excellent career prospects.

## Flexible study

---

If classes at your teaching centre allow, you can manage your studies to fit in with your own schedule and responsibilities. You do not have to enter for examinations every year if you have not had enough time to allocate to your studies. As a guide, you should dedicate at least 35 hours per week for approximately 34 weeks of the year if you intend to complete the maximum of four courses in one year.

## Study materials

---

Your study materials are available through the VLE and are specially written by academics appointed by LSE. The cost of your online course materials is included in your initial and continuing registration fees.

Depending on the course, materials are likely to include a student guide and the programme handbook;

online subject guides and/or online course materials for each course studied; past examination papers and examiners' commentaries.

## Books

---

Although many courses will provide access to the core textbooks free of charge, for others you may need to purchase your own books. Our official online bookstore partners can help with sourcing any texts you need to buy.

## Webinars

---

EMFSS offers a series of live webinars presented by LSE staff, providing study and revision guidance for selected courses, as well as other topics such as study skills and careers.

## Library support

---

### LSE library

Registered students have free-of-charge access to the main LSE Library on a reference basis. For more information please see: [lse.ac.uk/library](https://lse.ac.uk/library)

### Senate House Library

Registered students are entitled to free reference access to Senate House Library. However, there are membership fees payable for those who wish to borrow books. For more information please see: [bit.ly/SHL\\_info](https://bit.ly/SHL_info)

## Alejandro Jose Otero

Universidad Privada Boliviana, Bolivia

**'The EMFSS degree is defined by greatness, history, and heritage. It opens doors because so many significant people from across recent history have studied at the University of London and LSE.'**

## Assessment

---

The format and mode of assessment for this programme may change due to events or circumstances beyond our control. Students will be informed of their assessment arrangements via their VLE, once confirmed. For the latest information on examinations, please visit: [london.ac.uk/exams](https://london.ac.uk/exams)

# Support for your studies

## Online support

You must have access to the internet so that you are able to make use of resources which are only available online. See computer requirements: [bit.ly/computer-reqs](https://bit.ly/computer-reqs)

Once registered, we will send you a University of London username and password enabling you to log in to the Student Portal. You can then access your University of London email account and the following two key resources:

### The Virtual Learning Environment (VLE)

This provides online courses and additional resources to enhance your studies, including:

- online courses to guide you through your study
- videos delivered by LSE academics, including tutorials and worked examples

- online activities that allow you to develop your understanding
- study skills advice, digital literacy, and exam preparation.

### The Online Library

You can download journal articles required for your studies from the Online Library for free. About 75 per cent of the essential readings across all EMFSS courses are available through the Online Library.

## LSE Summer School

LSE runs Summer School over nine weeks in three separate sessions, from late June to mid-August each year. This unique opportunity gives students on the University of London programmes the chance to study at LSE in person, to engage directly with the School's world-class faculty and to meet other EMFSS students from their global network. 80 EMFSS students attended the LSE Summer School in London in

2022 as part of a cohort of thousands of students from across the globe.

A vast range of academically rigorous courses are available across a number of subjects and levels, taking place in state-of-the-art teaching facilities. All programmes are led by LSE academics, and are suitable for undergraduates, postgraduates and professionals. There is also a comprehensive professional skills and social programme, helping students expand their experience, grow their networks and explore London and beyond.

## Summer for credit

EMFSS students can now receive credit for LSE Summer School courses towards their University of London degree. Students are also eligible for a 15 per cent discount on their Summer School fees. Visit: [lse.ac.uk/summerschool](https://lse.ac.uk/summerschool)

## Spend a year at LSE

Students who have completed at least four courses from the degree are able to apply for admission to the LSE General Course (typically spending your third year of study in London) and claim credit for the successful completion of relevant courses. The General Course is an opportunity for selected EMFSS students to experience life at LSE, attending lectures and classes for the period of a full academic year of study (September–July). For more information visit: [bit.ly/LSE\\_Global\\_Learning](https://bit.ly/LSE_Global_Learning)

# Fast track to professional accreditation

Graduates on some EMFSS courses are eligible for exemptions when studying for professional accreditations.

- Eligible to claim credit for up to six Professional Stage modules

Students study for the full ACA qualification while in full-time employment. BSc Accounting and Finance graduates can claim credit for up to six Professional Stage modules required for qualification, depending upon the options chosen and grades achieved. Details can be found on their website: [apps.icaew.com/cpldirectory](https://apps.icaew.com/cpldirectory)

Chartered Institute of Management Accountants

- Eligible to receive up to five exemptions from CIMA's Certificate in Business Accounting and CIMA's Operational Levels for P1 and F1

Graduates who have passed the required specified EMFSS courses are eligible to receive exemptions for CIMA's Certificate in Business Accounting (exemptions being granted for BA1-BA4) and also CIMA's

Operational Levels for P1 (Performance Operations) and F1 (Financial Operations) which count towards CIMA's Diploma in Management Accounting: [cimaglobal.com](https://www.cimaglobal.com)

**BSc Accounting and Finance graduates**

**BSc Finance graduates**

- Eligible for exemption from certain ACCA modules leading to professional qualification

Graduates from the above programmes who have passed combinations of courses on these degrees are eligible for exemption from certain ACCA modules leading to professional qualification. For further information see: [accaglobal.com](https://www.accaglobal.com)

singapore QP

- Eligible to qualify for the Singapore Qualification Programme

Graduates of these programmes who pass certain courses as specified by the Singapore Qualification Programme are eligible to apply for exemptions from a number of the Core Syllabus Areas of the Singapore QP Academic Base. More details about the Singapore QP are available at: [sac.gov.sg](https://sac.gov.sg)

**'The EMFSS degree is a degree that sets you up for life in terms of developing your critical thinking skills, challenging you and teaching a rigorous level of discipline.'**

**Rohen Veera Kumaran**  
Singapore Institute of Management, Singapore

## Dr Francesco Nava

Academic Director of the University of London Programmes at LSE

**'As the Academic Director of the EMFSS degrees, my responsibilities include ensuring that the programmes reflect the latest developments in research, that any developments in LSE's internal degrees are reflected in EMFSS courses, and that delivery of the EMFSS programmes is of the highest standard. Upon graduating for the EMFSS degrees, students will have the knowledge and the skills to succeed in a wide-range of graduate careers or in further academic study. Our aim is to grow through the EMFSS degrees a cohort of leaders which can make a positive difference worldwide.'**

# EMFSS degree programmes

## BSc degrees

EMFSS BSc degrees are typically based on undergraduate degrees taught at LSE. BSc degrees consist of 12 courses when taken through the Standard Route and nine courses through the Graduate Entry Route. Courses are classified as either 100, 200 or 300 level, corresponding to standard UK three-year undergraduate degrees.

## Degree structure

There are 12 degrees to choose from. All degrees consist of 12 courses and each course is examined, typically by a three-hour, closed book examination (though some courses are examined by other forms of assessment).

If you already hold a degree from an approved university, you may be admitted through the Graduate Entry Route and qualify for the award of a degree on the basis of passing nine courses.

You may remain registered for a degree for a maximum of six years. Full regulations on all these matters may be found in the programme regulations: [bit.ly/EMFSS-ProgRegs](https://bit.ly/EMFSS-ProgRegs)

For full information on programme structures, please visit the relevant programme pages at: [london.ac.uk/emfss](https://london.ac.uk/emfss)

The EMFSS programme regulations also contain full details on the rules that govern the choice of any course, please see: [bit.ly/UoL-Regulations](https://bit.ly/UoL-Regulations)

## Available degrees

### Accounting, Banking and Finance programmes

- BSc Accounting and Finance
- BSc Finance

### Business and Management programmes

- BSc Business and Management
- BSc Management and Digital Innovation

### Data Science programme

- BSc Data Science and Business Analytics

### Economics programmes

- BSc Economics
- BSc Economics and Finance
- BSc Economics and Management
- BSc Economics and Politics
- BSc Mathematics and Economics

### International Relations and Politics programmes

- BSc International Relations
- BSc Politics and International Relations

# Accounting, Banking and Finance

## About the programmes

These degrees have been developed by LSE academics within the Departments of Finance and Accounting, both of which enjoy pre-eminent reputations for the excellence of their teaching and research.

The structure of the programmes allows you to choose optional courses in related areas which complement the core courses to give well-rounded coverage of the major issues and areas of modern financial and accounting theory and practice.

You will find that the courses have an international flavour, developed in consultation with academics and professionals throughout Southeast Asia as well as the UK and other regions.

This gives your study experience a truly global perspective, broadening your horizons as well as honing your understanding and critical analysis skills of key topics within finance, banking and accounting.

## Programmes offered in this area

### Degrees

- BSc Accounting and Finance
- BSc Finance

We also offer a Graduate Diploma in Finance. For more information on all available Graduate Diplomas, see page 23.

## Where can it lead?

Studying one of our Accounting, Banking and Finance programmes gives you the breadth of understanding and the quantitative skills you need to launch your career into the accounting or finance industry. Take your career in any number of directions, including accountancy, consulting, risk management, investment and commercial banking, sales and trading, or investment analysis and management.

**‘The University of London degree was a really amazing experience. I really liked how it wasn’t just academic, it also focused on how I can implement it in my real work experience. I learned quite a few things that I actually implemented in my business and it really helped me with my startup. It’s going to help me in the future with the expansion as well.’**

**Zain Abbas**

University College Lahore,  
Pakistan

# Business and Management

into a multitude of career paths. You can explore the world of consulting, capitalise on your quantitative training in accountancy or banking, or use your skills in any number of firms across the world in general management, marketing or information and innovation management.

## About the programmes

These qualifications will prepare you for the demanding and competitive world of business and management. They combine a study of the core social science methodologies with the development of technical skills such as data analysis and presentation, which together provide practically-relevant knowledge and understanding.

You will learn about the political, social and cultural aspects of the business and management environment and acquire the ability to critically assess and challenge ideas, which will be beneficial throughout your career.

## Programmes offered in this area

### Degrees

- BSc Business and Management
- BSc Management and Digital Innovation

We also offer a Graduate Diploma in Management and a Graduate Diploma in Management and Digital Innovation, for more information on all available Graduate Diplomas, see page 23.

## Where can it lead?

The wide-ranging topics you'll study in our Business and Management programmes allow you to springboard

## Prachin Patel

Podar World College, India

**'The academic standard is right up there. The variety of the modules available was what I required. It allowed me to pick what I needed for my future career path.'**

# Data Science

## About the programme

The Data Science and Business Analytics degree provides the essential training in probability, statistics, mathematics and computing skills for the visualisation and analysis of large datasets, deriving valuable insights from data. The programme has a strong focus on methodology, but also on applications in finance and economics as well as in business, marketing and beyond. Developed in response to the clamorous demand for data scientists across every business area, these programmes equip students with the knowledge and skills to capture the potential of big data to deliver transformational solutions to real world problems.

## Programme offered in this area

### Degree

- BSc Data Science and Business Analytics

We also offer Graduate Diplomas in Data Science and Business Analytics. For more information on all available Graduate Diplomas, see page 23.

## Where can it lead?

With some analysts predicting a global shortage of data scientists lasting for the next 10 years, graduates from these programmes will be in demand from companies in fields from finance and e-commerce, to health, sport and retail. Students will also gain the knowledge and skills they need to progress in postgraduate study.

The programme balances methodology and application, providing the training needed for employment in numerous fields as a data scientist, analyst or similar.

Students will gain the ability to think critically and independently and develop a range of skills and knowledge that marks them out from the crowd.

## Dr James Abdey

Associate Professorial Lecturer,  
Department of Statistics

**'Blending quantitative expertise with qualitative insights, graduates of this programme will be among the world's first in this area due to undergraduate provision of such programmes being in its infancy. With strong employer demand for graduates with these skills, and a limited supply of graduates, students pursuing the degree will surely gain a competitive edge in the labour market.'**

## Professor Irini Moustaki

Department of Statistics, LSE

'Data science has recently experienced a tremendous growth due to the increasing amounts of large and complex data. As a student, you will be equipped with knowledge and tools in statistics, mathematics and computer science to address real world challenges across multiple sectors, including finance, economics, marketing, insurance, health and beyond. The programme is designed to provide you with strong quantitative skills that are transferable to any substantive area of applications and to make you an independent data analyst who can use the latest statistical software and methods to provide data-driven solutions to business problems.'

My role as an academic coordinator is to provide academic direction for the Data Science and Business Analysis programme. In my job as Professor, I teach modelling for clustered and hierarchical data and survey methodology to postgraduate and undergraduate students from various degree programmes at LSE. For my research I develop statistical methodology applied to psychology, educational assessment, behavioural sciences and social sciences in general.'

# Economics

## About the programmes

Do you have a passion for making sense of the world's challenges?

These programmes have been designed for those who wish to shape the future of business and society. After completing your studies you will emerge as a well-rounded economist, ready to interpret abstract questions into quantifiable solutions. Join alumni who have gone on to access postgraduate studies at some of the world's most prestigious learning institutions and started meaningful careers.

The first year of the programme will give you an introduction to economics and develop your quantitative skills. During the second year you will explore more deeply the three core areas of microeconomics, macroeconomics and econometrics. In your final year, you will study higher-level economics courses but can also select from courses in other key subject areas to help shape the next step in your career.

**“Students choosing this programme want to stay close to home, but also get some international exposure and a degree that is widely recognised across the globe and well understood by employers.”**

Dr Francesco Nava, Academic Director and Lecturer in Economics, Department of Economics, LSE

## Programmes offered in this area

### Degrees

- BSc Economics
- BSc Economics and Finance
- BSc Economics and Management
- BSc Economics and Politics
- BSc Mathematics and Economics

We also offer a Graduate Diploma in Economics. For more information on all available Graduate Diplomas, see page 23.

## Where can it lead?

Many of our graduates have chosen to pursue careers in the financial sector, including positions involving economics research as well as those in banking or hedge funds. Others take up positions as economic or management consultants, join central banks, their home country's government economic service or international organisations.

A significant number choose to go on to graduate study, not just in economics but also in finance, management, development, economic history and other fields. We work to prepare our students who are aiming in this direction to understand the

rewards of engaging in economics research and the benefits of interacting with faculty and industry professionals who are leading economists.

## Vishakha Raj

Singapore Institute of Management, Singapore

**“The benefits of studying at a Recognised Teaching Centre would be the global exposure as I get to study with friends from Myanmar, Vietnam, India, China, Singapore and Malaysia.”**

# International Relations and Politics

## About the programmes

Both programmes develop skills in the analysis of key issues of contemporary society – for example, issues of order and stability, or relating to inequality and injustice. These skills include the ability to read critically and reflect on theories and practices, and to think creatively in order to produce well-crafted essays in your final examinations.

These qualifications allow you to develop an in-depth understanding of a key social science discipline and also take individual subjects from others, so you develop a breadth of knowledge and understanding of the social world.

The degrees allow you to engage with key theoretical ideas in the respective fields; to analyse different types of social and political problems of relevance to the world today; and to form balanced judgements.

## Programmes offered in this area

### Degrees

- BSc International Relations
- BSc Politics and International Relations

## Where can it lead?

These degrees develop intellectual and practical skills that are relevant across a wide range of career opportunities. Our graduates have found work with a huge variety of employers including multilateral and intergovernmental organisations, non-governmental organisations, banking and accounting services, local and national governments, educational establishments, and media and publishing companies.

Others have opted to continue studying these academic disciplines, or have transferred the skills they developed to other disciplines, such as law.

## Paulina Sapelli Piriz

Universidad de Montevideo, Uruguay

**‘The global recognition is what makes it the ideal choice as I wanted to have a multicultural experience that would lead to an international career.’**

# Graduate Diplomas

## What are they?

The EMFSS Graduate Diplomas are bachelor's, or undergraduate, level qualifications that have been specifically designed for graduates who would like an additional bachelor's level qualification but do not want to commit to a full second degree. They are highly valued by students who want to acquire university level

education in a subject that is unrelated to their first degree, either to enhance their employment prospects or to proceed to a postgraduate degree or other advanced qualification.

Graduate Diploma programmes are designed so that they can be completed and examined in a single year of full-time study. Students can remain registered for the Graduate Diploma for up to five years.

## Who are they for?

Graduate Diplomas are sometimes described as 'conversion' diplomas because they allow a student with an undergraduate qualification in one subject to proceed to a master's degree or other postgraduate qualification in another. It is important to understand the specific entry requirements of your desired master's programme.

Universities typically indicate what qualifications, in terms of courses and results achieved, they require, and students should confirm that the Graduate Diploma could enable them to reach these standards. Mostly universities will want to see evidence of strong results in intermediate or advanced courses, and the structure of the Graduate Diplomas is built around this requirement.

In many subject areas, Graduate Diplomas may also have value in terms of professional development. For example, a business manager with a degree but no background in accounting or information systems can achieve a good understanding of the elements of these subjects in a short space of time.

## Available programmes

We currently offer the following Graduate Diplomas:

- Business Analytics
- Data Science
- Economics
- Finance
- Management
- Management and Digital Innovation
- Mathematics

## Admission

All our Graduate Diplomas include 200 and 300 level courses which students will typically study from the outset. This means that students need to be sure that they are sufficiently qualified to undertake the programme. Given that some of the material covered within the programmes requires subject-specific knowledge, such as the materials typically taught in the first year of a bachelor's degree or equivalent, we have categorised the programmes into three groups:

- **Standard:** these are diplomas requiring only the general standard of an undergraduate degree or equivalent.

- **Standard Plus:** these are diplomas where students are advised to confirm that, through an undergraduate degree or otherwise, they are familiar with our basic core subjects (economics, mathematics and statistics) to the level of a typical first-year undergraduate course. This is not a formal requirement but students who have no familiarity with these subjects from their first degree are advised to undertake some additional study. These are diplomas in **Business Analytics, Finance and Management.**
- **Technical:** these are diplomas for which a strong background in mathematics/statistics, going beyond the level of upper secondary education, is required. Applicants for these diplomas are expected to have a strong understanding of mathematics and are advised also to have some familiarity with economics. These are diplomas in **Data Science and Economics.**

**'One of the benefits of studying at a Recognised Teaching Centre is being able to stay at home with my family. Learning on the programme has encouraged me to be competitive and to do my best every time.'**

# Certificate of Higher Education in Social Sciences (CHESS)

## Who is this for?

CHESS is a qualification in its own right that must be studied at a Recognised Teaching Centre, please visit: [bit.ly/recognised-centres](https://bit.ly/recognised-centres)

This qualification is for you if you:

- have the ability, motivation and maturity to study at degree level, but do not have the qualifications usually required to enter a degree programme
- have the necessary qualifications to embark on a degree, but would prefer a course with more teaching support
- intend to take a degree programme, but would like to gain a recognised qualification after one year.

## An entry route to degree study

If you do not have A levels or their equivalent, the CHESS may provide an entry route to all of the degrees in the fields of Economics, Management, Finance and the Social Sciences.

If you intend to go on to a degree programme listed in this prospectus, choose your courses carefully and make sure that the courses you choose are available on the degree that interests you.

This will ensure that you receive credit for the courses you have passed. You can transfer to one of the degrees listed in this prospectus after attempting four courses and passing three full courses of the CHESS.

## Features of the CHESS

You take the same courses and sit the same examinations as those offered to degree students.

- You can complete the CHESS in a minimum of one year and a maximum of three.
- You must pass all four courses in order to be awarded the CHESS.
- The flexibility of up to three resits.

## Further information

There are a number of universities in the UK, including LSE, which will consider you for entry into the second year of a degree if you pass the CHESS with very high marks and have taken the appropriate courses. You will need to apply through UCAS, stating that you are applying for second-year entry.

For full details on how to meet our entrance requirements, including further information on our general entrance requirements, visit: [london.ac.uk/courses](https://london.ac.uk/courses)

# Entrance requirements

**Please note:** you must study at a teaching centre which has been recognised to teach our programmes, many of which have their own admission criteria. You should contact the Recognised Teaching Centres directly for further information. Visit: [bit.ly/recognised-centres](http://bit.ly/recognised-centres) All students will need to register at, and pay fees to, a local Recognised Teaching Centre. For full details on how to meet our entrance requirements, please visit: [london.ac.uk/courses](http://london.ac.uk/courses)

\*\*\* Applicants applying for the Graduate Diplomas in Economics and Data Science must have mathematics at degree level standard, for further details please visit: [london.ac.uk/emfss](http://london.ac.uk/emfss)

# Further information

## How to apply

---

This prospectus provides a summary of information only. We strongly recommend that you visit our website for more detailed information on these programmes before making an application. Visit: [london.ac.uk/emfss](https://london.ac.uk/emfss)

## Recognition of Prior Learning (RPL), Standard Route only

---

You may apply for RPL from up to four full 100 courses. You are advised to apply as early as possible if you want to claim RPL exemption from a course. For further information please see: [bit.ly/emfss\\_RPL](https://bit.ly/emfss_RPL)

For the Graduate Entry Route you can apply for RPL exemption from one full 100 course.

## Fees

---

The total fee payable to the University of London for 2023–2024 will be published on our website once confirmed. On average, fees incur a five per cent year-on-year increase. For the latest information on programme fees please visit: [london.ac.uk/fees](https://london.ac.uk/fees)

In addition to the fees payable to the University, you should also budget for the cost of tuition at a Recognised Teaching Centre and the fee levied by your local examination centre.

**Please note:** student fees shown on our website are net of any local VAT, Goods and Services Tax (GST) or any other sales tax payable by the student in their country of residence. Where the University is required to add VAT, GST or any other sales tax at the local statutory rate, this will be added to the fees shown during the payment

process. For students resident in the UK, our fees are exempt from VAT.
